Discussion on 2025 budget and Hwy H project: It was reported that the sidewalk inventory has been completed, and calculations are currently underway. We have been informed that including sidewalk repairs in the County's project is no longer an option. Initially, we had hoped to utilize the 80/20 grant program, where 80% of the cost would be covered by the grant, and the remaining 20% would be split 50/50 between the Village and the property owners. However, due to the Highway H project exceeding the maximum allowable grant amount, the Village will now need to cover 100% of the sidewalk replacement costs, which will still be shared 50/50 with property owners.

The Village will pay 50% of the total sidewalk replacement costs, including sidewalks abutting Village-owned property and those damaged by boulevard trees. These costs are currently being calculated and will be presented during the budget process.

It was also noted that updated estimates from Quest Engineering show that the Highway H project costs have increased by approximately \$20,000 compared to the figures presented at the last public meeting. The project is expected to go out for bid in early spring, at which time the actual costs will be confirmed.

Adjournment: Motion by Schueller/Lepak to adjourn. All ayes. Motion carried. The meeting was adjourned at 8:12 p.m.
